

Hacked

**On
Social
Media?!**

Lost Access? Report It to the Social App

[Facebook](#) 

[Instagram](#) 

[TikTok](#) 

[Linkedin](#) 

Ask Friends & Family to Report It, Too

Their report can help verify your
claim & help you regain access

Regained Access? Lock It Down

Create a long, unique password
with 12+ characters.

Reusing passwords leaves the
account open to future hacks.

Turn on MFA for Your Social Media App

Multi-Factor Authentication (aka 2FA) adds a layer of protection even if your password is compromised.

[Get Quick Guide Here](#) 

Keep A Wary Eye Out

Check for any unrecognized secondary emails or MFA devices added that aren't yours.

Find this under 'Settings' and remove access to anything you didn't set up.

Notify Friends, Family, & Work

Alert your contacts. It protects
them from scammers pretending
to be you.

Security Awareness Simply Explained
