3

Was The Breached Password Used On Other Apps?

If Yes, repeat steps 1 & 2 for each
of those accounts, too

Don't Reuse Passwords!

It's critical that new passwords
are not ones already in use for
any other accounts

5

Financial Accounts? Set up Transaction Alerts.

Keep an eye on activities for
the next few months

Contact the Breached Company

Ask for recommendations on what else to do to protect your account

Stay on Alert

**Expect an increase in sneaky
phishing emails**

Freeze Your Credit

It's free & prevents scammers using your info to open credit lines in your name
