

A Grinch-Proof Guide

To Verifying
Online
Stores With
Who.is

Be a safe online purchase
pro using these steps...

Clicked on an ad with an Unbelievable Offer?!

Take a second to check it's not
about to take your money and run.

www.who.is

2

Paste the URL into
www.who.is to check
how old the site is.

Some scam sites are DAYS old!
Treat anything less than a year old
with extreme caution.

3

Check
where the site is
registered.

Didn't expect it to be hosted in
China?!

Then think twice, as even if you get
the goods, they could be counterfeit.

4

Red Flag Offers...

Prices that seem too low?

80% off a brand new phone? Probably a scam!

5

Red Flag Offers...

That sold-out game console everyone's after?

If it's suddenly available at a discount, be **VERY** suspicious!
