

New Employee Cybersecurity Do's And Don'ts

Don't Post Photos with Your Badge Visible

Cybercriminals can clone it and impersonate you. Keep ID badges off social media.

Don't Share Company Life on Social

**No vlogs. No behind-the-scenes
office tours. You could leak
sensitive info without realizing it.**

3

Never Share Your Password

Not with
coworkers.
Not even IT.
Your login is
yours alone.

4

Ignore Gift Card Scams

No one legit
will ask you to
secretly buy
gift cards.

That's a classic
scam - don't
fall for it.

5

Watch Out for Executive Scams

New hires are easy targets. Double-check “urgent” emails from leadership. When in doubt, verify.
