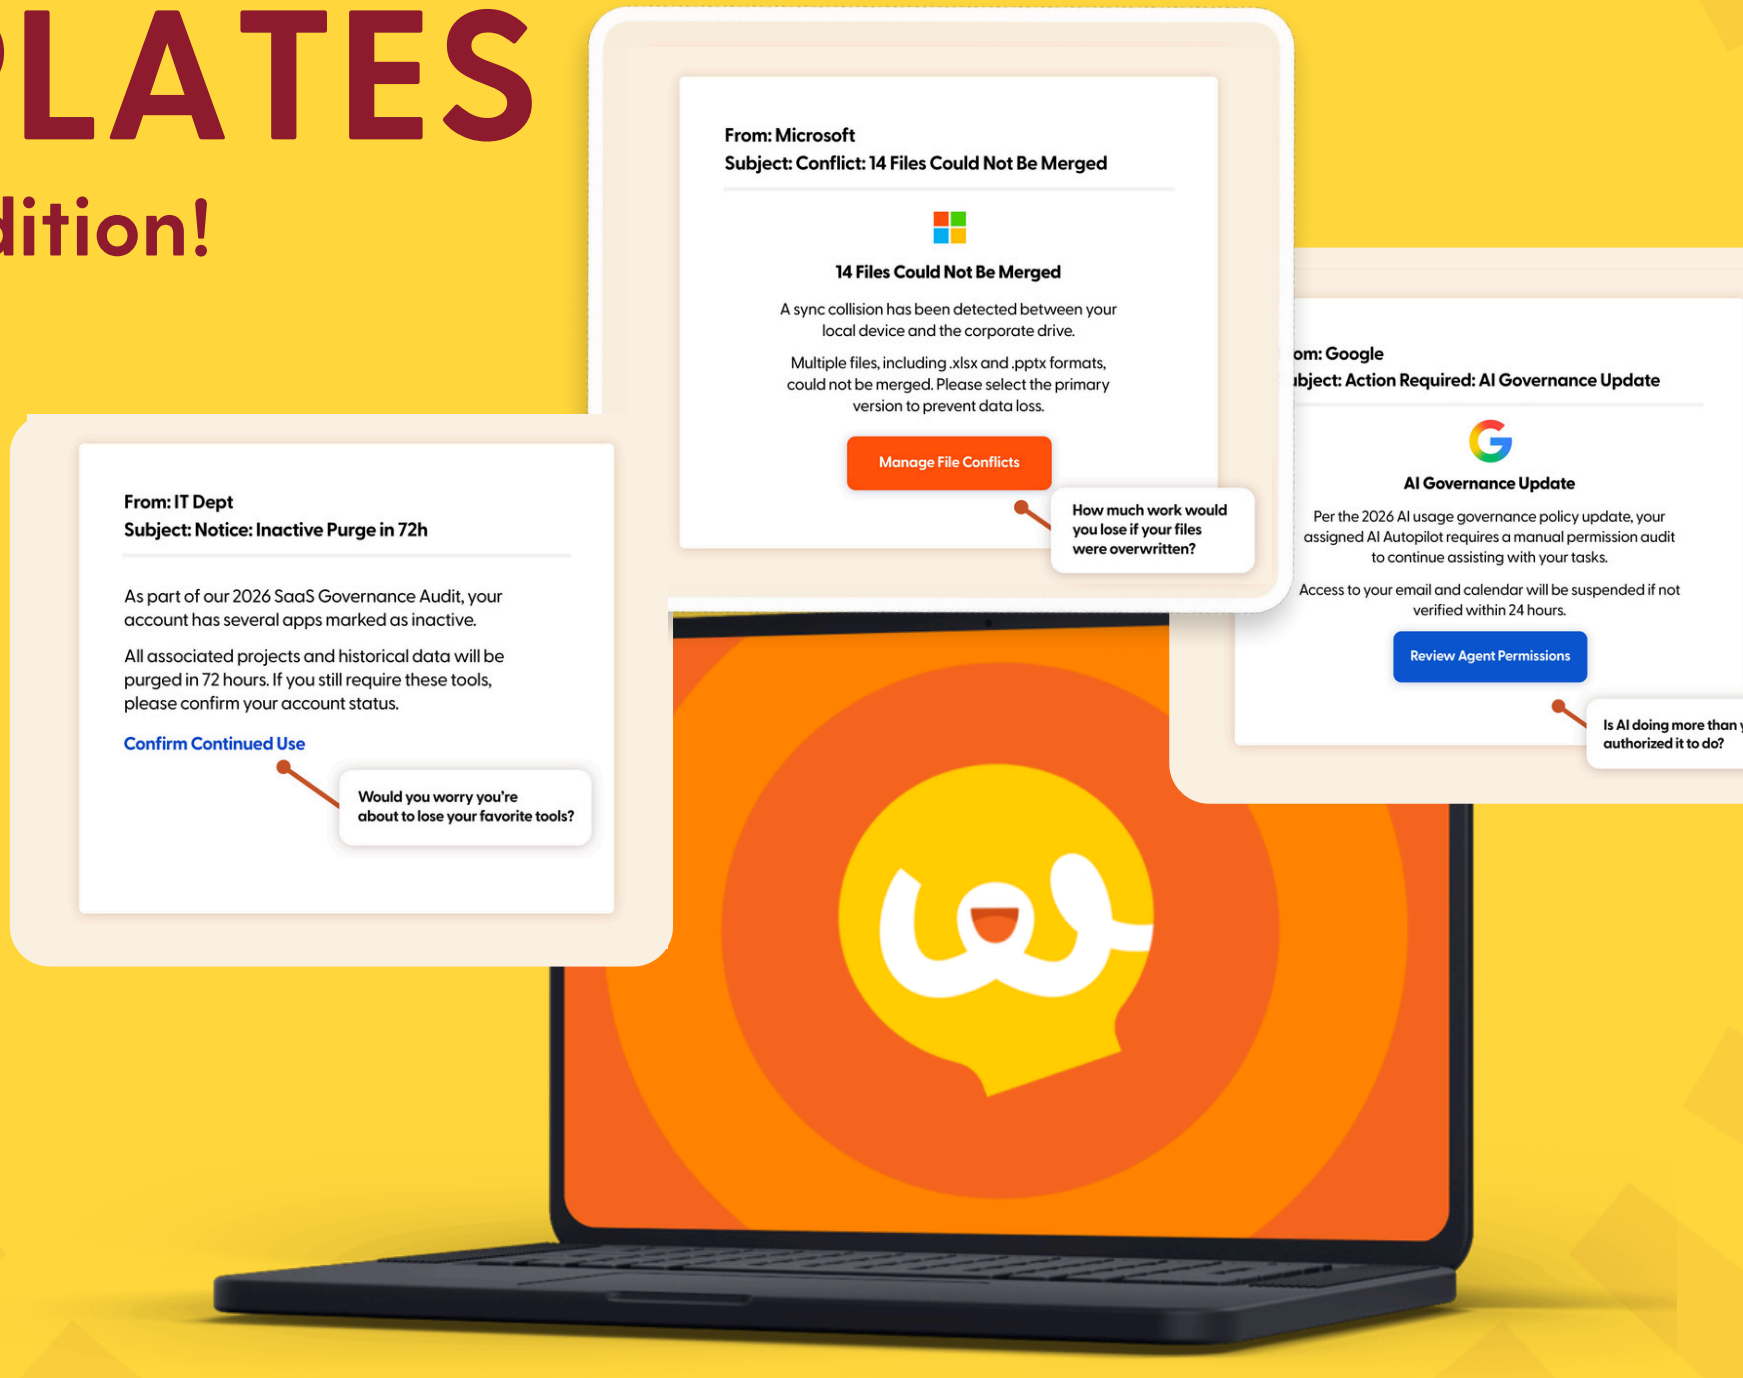
TRICKY PHISHING TEMPLATES

February Edition!



DEEPFAKE DETECTOR

From: Internal Security Operations

Subject: Biometric Flag Detected

A media asset matching your biometric profile has been detected by our deepfake monitoring filter.

To ensure your digital identity hasn't been compromised, please review the flagged content to confirm authenticity.

Review Flagged Content

Would you be curious to see if someone has cloned you?

AI AUDIT

From: Google

Subject: Action Required: AI Governance Update

AI Governance Update

Per the 2026 AI usage governance policy update, your assigned AI Autopilot requires a manual permission audit to continue assisting with your tasks.

Access to your email and calendar will be suspended if not verified within 24 hours.

Review Agent Permissions

Is AI doing more than you authorized it to do?

PAYROLL PROBLEM

From: HR

Subject: Action Required: Recent Payroll Audit

Our quarterly payroll audit has flagged a discrepancy in your yearly withholding or benefit information.

To ensure your next payment is processed correctly and without delay, please verify your details in the secure portal.

Verify Payroll Details

Would you risk a delay in your next paycheck?

CLOUD SYNC COLLISION

From: Microsoft

Subject: Conflict: 14 Files Could Not Be Merged

---

14 Files Could Not Be Merged

A sync collision has been detected between your local device and the corporate drive.

Multiple files, including .xlsx and .pptx formats, could not be merged. Please select the primary version to prevent data loss.

Manage File Conflicts

How much work would you lose if your files were overwritten?

INACTIVE PURGE

From: IT Dept

Subject: Notice: Inactive Purge in 72h

As part of our 2026 SaaS Governance Audit, your account has several apps marked as inactive.

All associated projects and historical data will be purged in 72 hours. If you still require these tools, please confirm your account status.

Confirm Continued Use

Would you worry you're about to lose your favorite tools?
