

THE SNEAKY WORLD BEYOND PHISHING EMAILS

01

Fake Business Listing on Google Maps

Scammers hijack names of legitimate businesses on Google Maps and list their own fake phone number and fake website.

Google Search Scams

Scammers also invest in search engine optimization and work hard to rank their scam sites in the top search results.

02

03

Fake Apps in the App Store

You can't blindly trust the App Store. Scammers found ways to list their own apps. Some will steal your information and others your money.

Scam Ads

Facebook is full of Scam Ads and is a scammers' paradise! Unfortunately, many people blindly trust Ads that appear on "reputable" sites and assume these sites filter out scams.

04

05

QR Code Scams

They are everywhere, especially in restaurants. Criminals can place their own sticker over the legitimate one. So that when you scan it, you will be redirected to a fake site.

Deep Fake

Imagine someone hacked your social media account and is now posting DEEP FAKE videos of you saying things you never said - trying to scam your followers.

06

07

Dating and Romance Scams

Dating scams are VERY common! After all, you are ready to meet a new stranger... This is like a haven for scammers.
